WHO WE ARE

# Building better together

Hyperledger Foundation is the open source, global ecosystem for enterprise-grade blockchain technologies that are front and center in critical developments and implementations around the world.

Hyperledger  
FOUNDATION

THE  
LINUX  
FOUNDATION

# A part of the Linux Foundation

Through transparent open governance, Hyperledger Foundation enables developers, enterprises, and organizations to collaboratively build, share, and enhance blockchain frameworks and tools.

By embracing the open-source principles established by the Linux Foundation, Hyperledger Foundation promotes interoperability and standardization, paving the way for the widespread adoption of secure and scalable digital trust solutions across industries and sectors.
