

Blockchain @ UNICEF

Presentation by Christina Lomazzo (clomazzo@unicef.org)

July 2019

UNICEF Stats

190 offices

7.7B USD/year

12,000 staff (88% in the field)

> 70 years old

In >300 emergencies in 2017

Buyer of ~34% of the world's vaccines...

And largest single purchaser of pencils

Our Blockchain History

2015 - Digital ID on Bitcoin blockchain...

2016 - First multi-sig contract &
Ethereum node...

2017 - Hackathons
(*Kazakhstan & Mexico*)...

2018 - Acceptance of crypto
(*France, Australia & more*)...

UNICEF France: Crypto Campaign

In early 2018, UNICEF France ran a fundraising experiment to accept cryptocurrency. The campaign called Game Changers, allowed gamers to mine cryptocurrency and donate it to the NatCom.

- The campaign raised 85 ETH and the NatCom was **positioned as an innovative group** within France.
- After the campaign, the NatCom **expanded the number of cryptos it accepts** to nine different ones.

Participants for NYU Class: UN-chained: Assessing emerging technologies for social good

This is the certificate that was issued to KazUAV

Service Group Kazakhstan 2019-02-28

Certificate of Recognition

Presented to

KazUAV

for participation in the live flight demonstrations at
**UNICEF'S DRONE TESTING
CORRIDOR IN KAZAKHSTAN**

Yuri Oksamitniy
UNICEF Representative in the Republic of Kazakhstan
28 February 2019, Almaty, Kazakhstan

@unicefinnovate

A world map with a dark background. Numerous small white dots are scattered across the landmasses, representing digital connectivity or internet usage. The dots are more densely packed in North America, Europe, and parts of Asia, while being sparser in Africa, South America, and Australia. The map is labeled with various countries and oceans in a light gray font.

UNICEF is looking to reduce the digital divide

A world map with a dark blue background. Numerous small white icons representing schools are scattered across the continents, with a higher density in North America, Europe, and parts of Africa and Asia. The map is labeled with various countries and oceans in a light blue font. The text "We want to bring every school online in a fair and transparent way" is overlaid in the center in a large, bold, white font.

**We want to bring every school online
in a fair and transparent way**

SURGE: Enabling communities to build solutions, using blockchain

SURGE is a series of events to teach young people what blockchain is, and how it can be used to solve challenges. The program includes:

- **Learning Events:** One day events to introduce newcomers to blockchain to what the technology is and how to build blockchain apps
- **Hackathons:** Two day event where coders, designers and strategists come together to build solutions to a specific challenge with the help of mentors.

@unicefinnovate

Innovation Fund

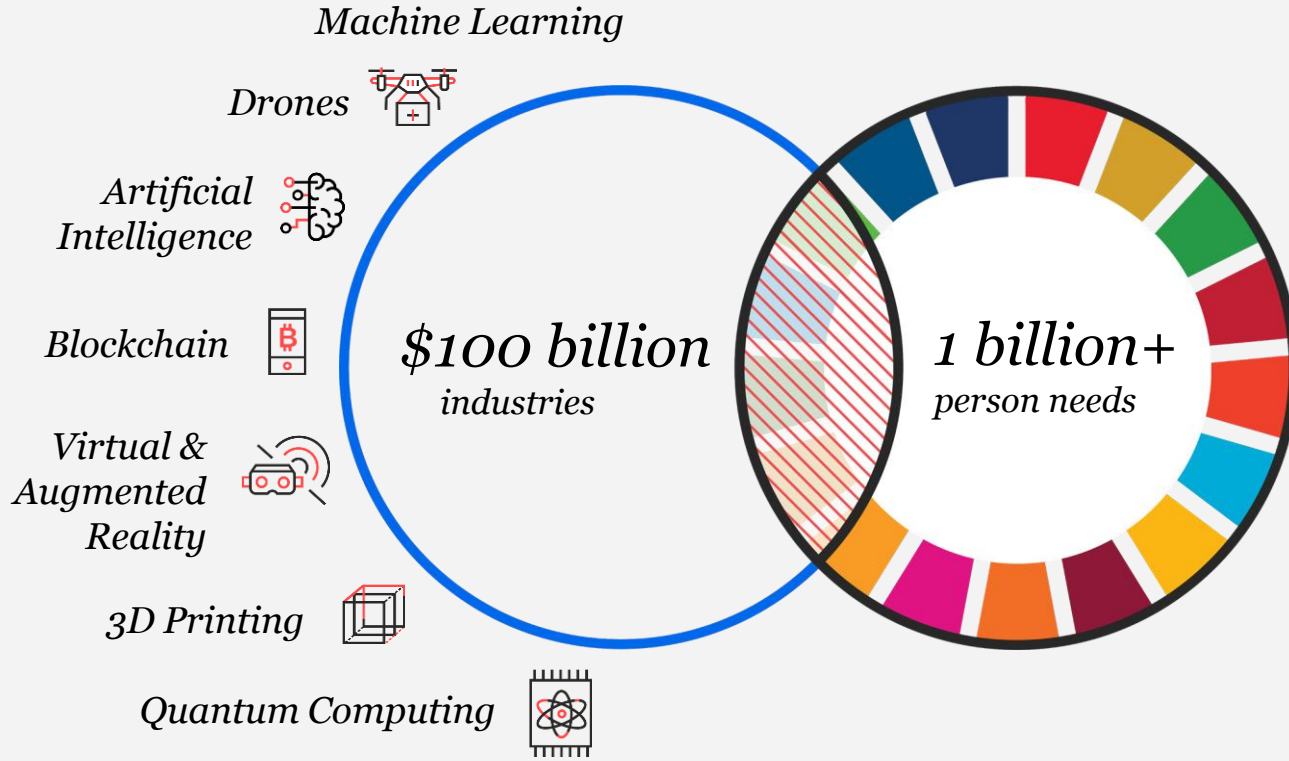

The UNICEF Innovation Fund invests in companies developing open source technology solutions that can improve the lives of children.

\$19.6 Million

@unicefinnovate

Frontier Tech Areas

Dec 2018: 6 investments (100k\$ each) in blockchain startups

- Atix Labs (Argentina); impact funding*
- Onesmart (Mexico); data transparency*
- Prescripto (Mexico); digital prescriptions*
- StaTwig (India); vaccine supply-chain*
- W3 Engineers (Bangladesh); mobile connectivity*
- Utopixar (Tunisia); community tokens*

Prescripto:
70,000 digital
prescriptions in
Mexico

W3 Engineers:
Urban
connectivity
through a mesh
network
