Healthcare

SPECIAL INTEREST GROUP

Hyperledger is a non-profit consortium of the Linux Foundation, advancing enterprise-grade business blockchain technologies through open source, open community collaboration

HC-SIG General Meeting Guest Presentation

Tsvetan Georgiev, Founding Partner at Senofi

Septemeber 18, 2020
1000 - 1100 Eastern

Senofi's Consortia product enables you to rapidly configure, deploy and manage blockchain networks via Hyperledger Fabric. The company behind Consortia is a team of software developers with a background in designing, building enterprise technology stacks and large scale enterprise applications. One of the major industries of focus is healthcare in addition to supply chain management. The team will present a live demo of their clinical trial application deployment across multiple members
