How is the integration complementary?

#dltledgers

- End-to-end execution of physical trades.
- Multi-party collaboration.
- Blockchain-based consensus.
- Access to trade finance.
- Granular tracking of trade flow.
- Plug-and-play.

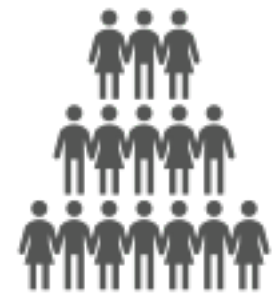

Bolero

- Electronic Bills of Lading.
- Rule book.

What's in it for #dltledgers?

1

Building an Ecosystem

Giving customers flexibility to solve challenges with both new and established technology.

2

Supporting Customers

A unified user experience for customers who are already using Bolero.

3

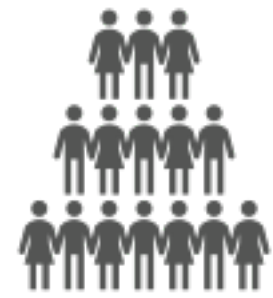

Winning Business

A complete, end-to-end digital solution that the market now requires.

What's in it for Bolero?

1

Momentum and Exposure

Benefitting from #dltledgers' publicity and reputation as a rising star in trade digitisation.

2

Route to Market

Leveraging #dltledgers' sales and marketing reach in key markets.

3

Latest Technology

Proximity to key blockchain and AI/machine learning technologies.
