Week 8 Slide

Han Xu

What I did for this week

1. Progress: Commands -> 19/20; Queries -> 14/15; in total: 33/35 (~94%)
2. Working on rebasing now
3. Took a look at Iroha Testnet (plan to work on that next week, but should finish rebasing first)

Technical Questions

1. Debugging
2. Promise.race will not cancel the slower process, so maybe write a cancel function?

General Question

1. N/A

What are left unfinished:

Remove peer -> due to unable to host Iroha testnet now

Fetch Commits -> which is analogous to Besu's WatchBlock

Questions for me

Critique is welcomed!

Expectation of Coming Week (Week 9)

Thank you!
