The Linux Foundation antitrust policy

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Hyperledger is committed to creating a safe and welcoming community for all. For more information please visit our Hyperledger Code of Conduct.

“Sustainable Rebound”

Recovery from the Covid 19 pandemic has to be sustainable in every sense of the word. This means that we need effective measurements of what is being traded, where it is being traded and who is trading in order to develop the best and most appropriate policy and strategy solutions. We know unsustainable trade outstrips sustainable trade in a ratio of 4:1 - as we start to “build back better” how can big data and digital solutions help?
