

# Global Scouting of DLT / Blockchain Educational Opportunities

Mentorship Project of Linux Foundation at  
Learning Materials and Development Working Group

June 2021

**HYPERLEDGER**  
BLOCKCHAIN TECHNOLOGIES FOR BUSINESS

# Why do this Project?

Learning about DLT and Blockchain is difficult.

There are overwhelming amounts of unorganized information scattered across the web.

We will be growing a unique community of learners.

Newcomers to DLT and Blockchain will have a great tool to learn quickly.

Barriers to entry for DLT will be lower.

We will create an effervescent Learning Initiative.

# Our Plan

**Community**  
Will review and give continuous feedback

**Survey**  
Will help gather human feedback

**Automation**  
Will help enumerate digital resources

**Knowledge Graph**  
Will represent our Learning Ecosystem in a Graph Database

**Community**  
Will validate and filter a Ontology of DLT/ Blockchain Learning

# What we will Achieve

## A Thriving Community

Diverse & Interested in Curation of Learning Resources for DLT / Blockchain

## A Knowledge Graph

A Visualized Graph, which will help in navigating an Ontology of DLT / Blockchain Learning

## A Global Directory

With Learning Resources

# CALL TO ACTION

**Answer** the Survey.

<https://forms.gle/FRo9t1jRNKWYRSw87>

**Contribute to Ontology and Taxonomy.**

**Contribute to the continuous development of  
Knowledge Graph**

**Help us curate** the results.
