18:17:23 From Elisabeth Green to Everyone:

lifetime carbon neutral

18:38:39 From Elisabeth Green to Everyone:

why not retire a carbon credit token by transferring it to the social security administration? That way, the SSA can deduct the \$10,000 ultimate value of CO2 sequestration from the retirement account of the original carbon creditor and add it to the retirement account of the emitter who used the token to offset emissions?

18:40:00 From Alex Ivan Howard to Everyone:

Interesting question, Elisabeth.

18:45:50 From Elisabeth Green to Everyone:

is accounting based upon economics or hard science?

18:54:29 From Elisabeth Green to Everyone:

Thank you for focusing on the accountability of animate units. Who is accountable for what percent of the actions of the unit that is animated by the mechanisms and programs created by more than one individual, such as a robot or factory?
