1. Pull requests: CI improvements from Mike
   a. Answered some questions, waiting on Dave Huseby.
   b. "The more of the content in searchable public domain, the better."
2. Indy SDK compatibility--ready.
   a. Indy Node--upcoming, nothing in Ursa blocking implementation
3. Sawtooth compatibility--technically there, but need compelling reasons to switch.
4. Push overleaf PDFs to ursa-docs
   a. Need a solution for more people to be able to see overleaf documents
5. Update on Sovrin crypto stuff.
   a. Choices for zero knowledge proofs.
