Overview of Proposal

The [Working Group Task Force](#) proposed that [WGs shall be dropped](#) and [WGs transition to TSGs](#). The crux of the proposal is to remove the expectation that WGs are to produce deliverables. However, given the cost associated with creating a new group type and name, it is appropriate to instead keep WGs and simply remove the deliverable component from their charter. It is worth noting that this implies that WGs will need to launch Task Forces to produce deliverables if they chose to do so.

Formal Proposal(s)

Change WGs' purpose to be about information exchange rather than production of deliverables.
