Intro / New Faces

Outstanding Changes Needing Review

Discussion Topics

1. Restructuring of EVMCC to separate EVMCC code from Fab3 as well as dependencies
2. Current status / attention of Swetha & Morgan.
3. minimal changes for basic truffle E2E
 - a. 2 small changes, one more involved change that conflicts with #1, restructuring
 - b. <https://github.com/swetharepakula/fabric-chaincode-evm/tree/truffle-wip>
4. Anything Else
5. fabtoken info - delayed from 2.0
6. evm gas limit hit by some users
 - a. should make a Jira for this
 - b. make it stored on the chaincode, use a transaction to change the value, thus all users of an instance must agree, etc
7. Burrow v0.26.2 release
 - a. mentions a bug that has been fixed in the evm.
