HLF From Proof Of Concept to Production

Session Topic or Project
Why we chose Hyperledger Fabric, what problems had to be encountered in its study and implementation and why we decided to implement own SDK and chaincode library.
S7 Techlab Hyperledger Fabric, c SDK.

Session Leader
Dmitry Zhvakin

Time Slots and Spaces
1 hour

Experience Level of Participants
Medium

Session Language
Russian

Programming Language(s)
- [ ] C / C++
- [x] Go
- [ ] Java
- [ ] Javascript
- [ ] Python
- [ ] Rust
- [ ] Other

Other Prerequisites
Experienced deploying your own HyperLedger Fabric network.
HLF.

The Plan
1. Blockchain in aviation
2. Why Hyperledger Fabric
3. Hyperledger Fabric basics
4. Chaincode development: problems and solutions
5. Hlf-sdk-go: why and internals
6. Fabric monitoring
7. S7 Opensource

The Goals
Attendees will learn with Hyperledger Fabric, know typical problems about developing and maintenance and it's solution.
Hyperledger Fabric, , , .

Software to Install Before
None
Special Equipment Required

1. Projection
2. Power
