Hyperledger Avalon

- **Hyperledger Avalon** enables privacy in blockchain transactions, moving intensive processing from a main blockchain to improve scalability and latency, and to support attested Oracles.

**Key Characteristics**

- Hyperledger Avalon leverages the existence of a distributed ledger to:
  - Maintain a registry of the trusted workers (including their attestation info)
  - Provide a mechanism for submitting work orders from a client(s) to a worker
  - Preserve a log of work order receipts and acknowledgments
- Hyperledger Avalon uses the *Off-Chain Trusted Compute Specification* defined by Enterprise Ethereum Alliance (EEA) Task Force as a starting point to apply a consistent and compatible approach to all supported blockchains.

**Documentation**

- [https://github.com/hyperledger-labs/trusted-compute-framework/tree/master/docs](https://github.com/hyperledger-labs/trusted-compute-framework/tree/master/docs)

**Project Management**

- Bug tracking to be enabled at [https://jira.hyperledger.org/secure/Dashboard.jspa](https://jira.hyperledger.org/secure/Dashboard.jspa)

**Repositories**

- [https://github.com/hyperledger/avalon](https://github.com/hyperledger/avalon)

**Communication**

**Mailing List**

- [avalon@lists.hyperledger.org](mailto:avalon@lists.hyperledger.org)
  - subscribe
  - messages

**Chat (for questions and ephemeral discussions)**

- [#avalon](https://github.com/hyperledger/avalon)

**Meeting**

- Developer Community Meeting is held biweekly on Tuesdays starting 2019-10-29. Timings for different timezones:
  - PST (UTC-7:00) 07:30 am
  - EST (UTC-4:00) 10:30 am
  - IST (UTC+5:30) 08:00 pm
  - CST (UTC+8:00) 10:30 pm
  - CET (UTC+2) 04:30 pm
  - No meeting 2019-12-31. Next meeting 2020-01-14
History

- 2018-06-26 Incubation status initiated for *Hyperledger Trusted Compute Framework* with approval of the Hyperledger Technical Steering Committee and creation of a Hyperledger Labs repository
- 2018-10-03 Renamed Hyperledger Avalon and entered full-fledged active status

Complete these tasks to get started

- Configure the sidebar - remove the "Pages", "Blog", and "Space Shortcuts" sections by clicking on the `-` sign next to them until they appear as a `+` sign. Then save the changes.
- Create a Meeting Agendas and Notes page - Click the Create button in the header to get started
- Brand your Space - Click Configure Sidebar in the left panel to update space details and logo
- Set permissions - Click Space Tools in the left sidebar to update permissions and give others access (usually the only change here is to click the View option for Anonymous users)
- Label the page appropriately - For a project space, label this page `project-home`. For a workgroup space, label this `wg-home`. For a SIG space, label this `SIG-home`.
