2020-04-14 Contributor Call

Video - GMT20200414-150634_Besu-Contr_1920x1080.mp4

- went over housekeeping
- Conferences
  - Went over past events - NONCON, HL Denver, Blockchain Columbia, IOBuilders
  - went over future virtual meetups.
- Release updates
  - 1.4.3 highlights (Tim Beiko, David Mechler)
  - 1.4.3 known issues (software hard drive, Danno Ferrin)
- Work Updates
  - ETC Phoenix - (Ed.
    - Mordor is running fine
    - Approx Classic switch in Jun
      - June 4th of 2020
  - Besu Native (Danno)
    - secp256k1 near term
    - EIP2537 sooner
    - AllBN128 needed in the near future
    - Not all libraries will have native fallbacks
    - Some future native libraries may not be crypto based. Crypto is just the first use case.
    - Libraries that can be built once a quarter are good candidates.
- Other Business
  - Moving ROADMAP out of the repo into wiki
    - Have repo be a pointer to the wiki, in README.md
  - NOTICE and ISSUE_TEMPLATE
  - contributors and mainter per repo
    - Post as two separate proposals.
- Open Forum
  - Low nonce transactions
    - abdel will answer offline
- Future topics
  - Demos?
