Programming Language(s)

☐ C / C++  
☐ Go  
☐ Java  
☐ Javascript  
☐ Python  
☐ Rust  
☐ Other

Other Prerequisites

None

The Plan

Hyperledger has a number of projects focused on identity solutions, such as Aries, Indy, Ursa, and the Identity Working Group. This presentation discusses each of these projects, what tools they provide you today, and their roadmaps for the future.

The Goals

- Attendees will understand the features offered by each Hyperledger Identity project.
- Attendees will understand how to contribute to Aries, Indy, Ursa, and the Identity Working Group.

Software to Install Before

None

Special Equipment Required

Power, projector, and screen.
