Agenda&Minutes

- Haitao Yue will demo the setup workflow;
  - Haitao Yue demo the latest workflow, there's remaining work, to be done within the week;
  - Tong Li tested the user dashboard, and open issues for the error messages.
- Haitao Yue will demo the latest workflow, there's remaining work, to be done within the week;
- Discussion with guangfa team about the integration as a new agent.
  - We currently have k8s agent based on kubectl cmd;
  - Will it be good to adopt REST APIs?
  - We do not have Guangfa team for this week's meeting.
  - Priyanka Vats Want to know the way to setup dashboard
  - There is an automation framework based on k8s and ansible script; (link to the docs: https://baf.readthedocs.io/en/develop/introduction.html#)
  - TODO: Next week Priyanka Vats will demo and brief the functionalities.
