Discussion items

Time	Item	Who	Notes
3min	Antitrust Policy		
5min	Introduction from people new to the call	All	John, Sumit and Alexander introduced themselves.
30min	Discuss SCs Concept Map	All	We discussed some of the concepts, John proposed some additions for the Law branch which were added. Sumit proposed some changes for IoT to be included along with AI. Sumit said he will add these changes later. Alexander proposed that should be a way to distinguish Hyperledger from Ethereum Smart Contracts. Generally if smart contracts on different platforms have many differences which affect the taxonomy then we should find a way for this distinction.
20min	Discuss presentations about SCs for next meetings	All	John offered to make a presentation of the Accord project he is working on. Sumit offered to contact with the University of Nicosia to find out if they wish to participate, either with a presentation or generally at the group.
