## Meeting Notes

- **Survey:** [Bobbi Muscara](#) has made the changes we went over in the last call. The survey is ready to be sent out.
  - **How to create an LFID**
    - Watch quick 1.5 min video <https://www.youtube.com/watch?v=EEc4JRyaAoA>
      1. Visit <https://identity.linuxfoundation.org/>
      2. Select "I need to create a Linux Foundation ID"
      3. Choose username, add email and password. Do not use any of the social login links.
      4. Input your first and last name
      5. Click "create new account"
      6. Check your email and validate the account
      7. Save your username and password so you don't have to login again! Remember that your email address is not the same as your username
- Why do I need an LFID? This allows you to:
- Browse through our mailing list history on [groups.io: https://lists.hyperledger.org/g/social-impact-sig/topics](https://lists.hyperledger.org/g/social-impact-sig/topics)
  - Edit and add content to our [Social Impact SIG Wiki](#), while you can always view the wiki without logging in, if you want to make changes you'll need to login with your LFID username and password. Save them for both sites and you'll only log in once! Please add yourself to our [Directory page](#), propose doing a presentation on our [Community Presentations page](#), and use this as your own space for ideas and discussions!
