Discussion items

Time	Item	Who	Notes
5min	Antitrust notice		
5min	Introductions from new people to the call		
40min	Discussion about <ol style="list-style-type: none">1. An article, a paper, a blogpost2. Kelly's proposal for BPMN tools3. Sofia's proposal for DAML language for modelling4. First bicycle use case to define and draft5. SC Working Group's Scope6. Hyperledger Global Forum 2020		<ol style="list-style-type: none">1. Kelly's students will contribute to writing a whitepaper regarding smart contracts for supporting interoperability. A work plan has been crafted for this purpose here Whitepaper - Interoperability Supported by Smart Contracts in Hyperledger Framework so the rest of the WG can follow along2. The group will follow the BPMN models for describing the workflow3. Sofia's proposal for using DAML will be complimentary to BPMN models4. The bicycle use case will be defined while writing the whitepaper. We have chosen this use case because it is a real-life scenario.5. A voting process will be contacted to define the WG's scope for the next quarter. The WG is more focused on producing papers, articles and blog posts.
10min	Anything not on the Agenda
