

Hyperledger Grid

Project	
Status	INCUBATION
CII Badge	
Description	Platform for building supply chain solutions that include distributed ledger components.

Hyperledger Grid is a platform for building supply chain solutions that include distributed ledger components. It includes a set of libraries, data models, and SDK to accelerate development for supply chain smart contracts and client interfaces. This project will accelerate the development of blockchain-based solutions to cross-industry supply chain problems

Documentation

The Hyperledger Grid documentation is available on the Grid website: [Hyperledger Grid Documentation](#)

Overview Slides

Brief deck explaining Hyperledger Grid and near term work activities and priorities. (Last updated June 2019.)
