<td>Platform for building supply chain solutions that include distributed ledger components.</td>
</tr>
</tbody>
</table>

Hyperledger Grid is a platform for building supply chain solutions that include distributed ledger components. It includes a set of libraries, data models, and SDK to accelerate development for supply chain smart contracts and client interfaces. This project will accelerate the development of blockchain-based solutions to cross-industry supply chain problems.

Documentation

The Hyperledger Grid documentation is available on the Grid website: [Hyperledger Grid Documentation](https://www.hyperledger.org/)

Overview Slides

Brief deck explaining Hyperledger Grid and near term work activities and priorities. (Last updated June 2019.)
