2020-06-24 Meeting Notes

1. Very brief discussion of announcements.
   a. We have a lot of people contributing for the first time. This is great!

2. Discussion of main zmix structural RFC: RFC PR #26
   a. Presentation from Mike.
   b. Some discussion on project structure.
   c. Explanation of feature flags vs subprojects.
   d. Pretty universal agreement that this was an excellent contribution.

3. Discussion of using github issues.
   a. Everyone seemed to be happy with this.

4. Discussion of projects consuming Ursa.
