2019-10-16 Meeting Notes

1. Outstanding PRs:
   a. Some from Lovesh, some from Mike on BLS.
   b. Test pipeline timing out
   c. We need better commented code in order to facilitate code review and reuse

2. Maintainer summit summary:
   a. Work on integrating Ursa in other projects.
   b. Some drawbacks for using Rust in Go.
      i. Unclear how to address Go adopters due to compiler issues.

3. Threshold issuance of credentials:
   a. Further meetings, and discussion at the Sovrin crypto meeting.

4. Ursa roadmap:
   a. We need more communication with other projects.
   b. Discussion on constant time implementations
