

Projects have two quarters to comply with common repo structure

Status	RESOLVED
Outcome	Unanimously approved
Minutes Link	28 JAN 2020

Overview of Proposal

In the quarterly report for Q2 2021, each project must report repos that do or don't have repolinter.json and are or are not using non-master branch as default.

Formal Proposal(s)

Projects must have repolinter.json in place [as decided previously](#); and move from master to main as the default branch. These points will have to be addressed as part of the quarterly reports.

Action Items

- Add the following questions to the quarterly reports template:
 1. Have you switched from master to main in all your repos?
 2. Have you implemented repolinter.json in all your repos?
- Inform all maintainers via all possible venues
- Request answers to those questions when quarterly reports do not provide any answers
