

TF-SIG Meeting - 2021.05.11

Tuesday 11th May

05:00 am UK Summertime -(6:00pm CET) . 9:30pm IST – Noon US EST – 9am US PST

Meeting link: <https://zoom.us/j/6223336701?pwd=dkJKdHRlc3dNZEdKR1JYdW40R2pDUT09>

Meeting ID: 622 333 6701

Passcode: 475869

Do we understand our data?

Data without meaning is worthless and therefore applying a semantic model makes it as information, knowledge and wisdom. With Knowledge Graphs meaningful information can be linked over the internet and create basement for both machine and human readable and understandable context. Harri Rantanen will explain, with some examples, how semantic modeling, Standardised Trust community and secure corporate data sharing methods, technology and applicable rulebooks may boost also Trade Finance digitalisation. All this will require collaboration and agreement on used international standards and market practices.

Meeting Agenda

- Introduction to the meeting and reading of the Linux Foundation Policy - Andrea Frosinini
- Speech: "Do we understand our data?" - Harri Rantanen
- Q&A Session and closure of the meeting (collective)
