Library

Below you can find research papers submitted published by our community. These documents range from highly technical to more business overviews. Most of them were published at conferences or online. We do not review them, solely want to show the breadth of interest and inspire others to investigate our tools and frameworks. If you have a paper you wrote, and would like to see it here, please email mpiekarska@linuxfoundation.org.

- [Master thesis] Blockchain for Change, An exploratory research on the potential of blockchain technology to create more sustainable global value chains
- [Master Thesis] Creating a Competitive Advantage from Underdeveloped General-Purpose Technologies
- [Tutorial] Setting up a Hyperledger Fabric infrastructure using CAs
- A Model-Driven Approach to Establishment of Private Blockchain Business Networks
- An Application of Blockchain Distributed Systems for Supply Chains in the Pharmaceutical Industry
- Block by Block
- Blockchain Technologies for the Internet of Things: Research Issues and Challenges
- Boosting Transition to Paperless Trade – Mapping Traditional Trade Contracts to Smart Contracts
- Developing a Log Storage System using Hyperledger
- On the design of a Blockchain-based system to facilitate Healthcare Data Sharing
- Shared Lifecycle Management
- Transitioning to a Hyperledger Fabric Hybrid Quantum Resistant Classical Public Key Infrastructure
- Using Blockchains to Strengthen the Security of Internet of Things
- When GDPR becomes real, and Blockchain is no longer Fairy Dust
- Work in Serbian
- Zero-Knowledge Proof: Verifying Blockchain Transactions with Less Risk
