Peer Programming Calls

We have a bi-weekly Peer Programming Zoom call for developers on Mondays at 9 AM US Pacific time (UTC-07:00 America/Los Angeles.)

If you're interested, please check the calendar for the next call.

Part of the calls will review our current mentorships:

- Project Plan - Automated Testing for Climate Emissions Ledger
- Project Plan - Blockchain Integration for Climate Emissions Data with Fabric and Cactus
- Project Plan - Implement Client Side Security for Climate SIG Fabric Application
- Project Plan - Documentation and Use Cases for Climate Action
