

Member Introductions

Members are requested to add their brief introductions here, by adding a row to the table below. Also, feel free to edit your entry as you see fit.

Here is a suggested format (but feel free to introduce any way you like) - Where are you based, what do you do, what interested you to join the SIG, and what projects are you interested in in the area of Blockchain for Supply Chain.

Member	Brief Introduction
Mark Anthony Morris	Startup Founder CEO CTO of Layered™ Blockchain & Hempchain™, a SaaS Agricultural Supply Chain Platform & Marketplace powered by Integrated Interoperable Hyperledger Fabric for Business Networks and Hyperledger Sawtooth for Sensor Networks incorporating AI (Bayesian Networks, CNN, RNN, GAN), AR, IIoT, and Aerial and Terrestrial Robotics with a suite of integrated modular and extensible Enterprise Applications (ERP, CRM, CMS, ECOMM, MRP, HR, PM and Finance (GL/AP/AR)).
Allan Gulley	Auburn University RFID Lab, Leading the first proof-of-concept for item-level IoT data exchange in the retail Retail and Apparel industry, Educating corporate partners on blockchain technology and its disruptive potential
Gokul Kandiraju	IBM Food Trust Technical Leader and Client Success Manager
Jim Lynch	Global Standards Director for GS1 US, Responsible for EPCIS, CBV, and Blockchain, Interested in collaborating with the industry concerning Blockchain for Supply Chain
Aman Johar	Proteum Capital, Los Altos, CA. Investing and deploying blockchain technology, interested in Blockchain Credentials - Education Tech, Supply Chain applications, Digital ID and Tokenization for Enterprise Use CAses
Jason Jaan	KPMG, business and supply chain operation solution planning and implementation via Hyperledger Fabric
Joseph Catende	Out of Florida, Accountant, F500 company, Interested in Grid, access to codebase, Entrepreneur. Thinking of a startup in the sustainability for the apparel industry
Yusak Rabin	Consulting - Singapore, Senior Manager for Risk Assurance - Transformation Assurance, interested in blockchain implementation for eCommerce/Retail & Food Use Cases.
Bret Carpenter	Financial professional, Asset management in precious metal. Bold Forward with CDW, Inception program with Nvidia - Geospatial - Would like to present AR and Geospatial technology he is developing. Kragco, Supply Chain in Precious Metals - Geospatial & GPS tech
Kamlesh Nagware	VP Blockchain Technologies, Snapper Future Tech,Pune India, Building supply chain solutions for different sectors based on Hyperledger Fabric
Christian Winzeler	Works in RSM, based in S. California, Food & Beverage consulting practice, interested in Food Safety
Amim Knabben	Logistics company in NY
Wesley Graham	Oracle, Product Management, Track and Trace app, interested in defining standards
John Hopkins	Track and Trace for a cannabis startup, interested in Grid, working on Semantics Working Group working on overlays to create shared context across different ledgers
Mark Rakhmievich	Oracle, interested in Supply Chain use cases projects
Mary Hall	Oracle, Director of Blockchain Product Marketing, interested in Supply Chain use cases projects for fashion, retail & food
Evelyn Mei	Oracle, Transportation Mgmt and Global Trade Mgmt Use Cases
Baiju Jacob and Jimjees Abrahams	Chaindigit, Pharma supply chain, and food traceability projects
Ben Taylor	Ledger domain, Clinical supplies, US FDA, healthcare supply chain
Sid Jain	Johnson & Johnson, Supply Chain Group, Pharma Supply Chain Traceability
Michael Ribet	Sofbang, Supply Chain Solutions for Manufacturing
Anant Kadiala	Oracle, Track and Trace of Goods

Gurdeep Kalra	Infosys, Supply Chain Solutions & Use Cases
Marco Carvalho	RSM, Food supply chain, Finance, Pharma, Retail, Integration with Microsoft Dynamics 365
David McLaughlin	RSM, Food supply chain, Finance, Pharma, Retail, Integration with Microsoft Dynamics 365
Victor Cavazos	Mexico, PruMarket, Full Farm to Fork Traceability
Vikram B...	Huron Consulting Group, Internal blockchain for Healthcare, and other industries
Soren	affiliated Oregon State University, Track and Trace and indirect procurement
Ian Mc...	American Petroleum Institute, Drilling equipment, GPS, Critical recertification in Oil & Gas
Dan Middleton	Chair of Tech Steering Committee of Hyperledger
David, Onyx	Available for any help
Uche Ogbonna	Supply Chain Specialist based in Nigeria. Highly knowledgeable in Sales and Operations Planning (S&OP), Integrated Business Planning (IBP), Supply Chain Processes and Technology. Interested in using Hyperledger Blockchain in solving Supply Chain Challenges.
Ricardo	Scantrust, Berlin, Secure QR code for identification, consortium governance, blockchain for supply chain
Jeff Stollman	RMTM, principal consultant, 4 patents pending in blockchain - 1 specific to supply chain; have developed a high-level DSCSA solution that centralizes trading partner data, but prevents direct viewing of any data for confidentiality. Located outside of Philadelphia.
Richard Duncan	Supply Chain specialist based in Australia working with Wesfarmers group omnichannel retail brands such as Officeworks, Target, Kmart and Bunnings. Focused on digital transformation, operations excellence and innovation across the supply chain.
Santanu Mukherjee	Mindtree Blockchain COE Lead. Architect of Food Supply Chain Platform on R3 Corda which is in production
Eric Villagomez	From Phoenix, Arizona; EDI/B2B Project Manager via Semi Conductor industry and interested in the supply chain solutions and use cases
Dr Kent Lau	Practising Pharmacist in Hong Kong. Blockchain consultant for several startups in healthcare and food supply.
Shijo Thomas	Product Manager based in London and working in the area of Ethical and Sustainable Supply Chains. Experienced in supply chain mapping, supplier collaboration and raw material traceability for the fashion and footwear industry. Available for any contributions.
Deverick Crippen	Convergence Specialist at Perdue Farms with interest in Hyperledger Case Uses for Food Safety and Traceability.
Randy Amiel	Senior Technical Consultant; Supply Chain - Avaap, Inc. a partner with Infor, Inc that is researching implementing a variant of Hyperledger Fabric called supply-chain-insights on github. It would be implemented by GT Nexus one of the largest supply chain networks in the world.
Dorivaldo Santos	Prospective entrepreneur based in Luanda (Angola) and State College (Pennsylvania) looking to help build a pipeline for the delivery of goods between both countries.
Majush Philip	Principal Consultant - Supplychain practice at Infosys , based out of Bangalore India. Interested in using hyperledger to improve supplychain - especially for improving traceability and data quality for planning.
Sunil Sanjeev	Microsoft (Product Management Azure Blockchain), based in Bangalore, India. Interested in supply chain use cases, projects and standards
Tomomi Yamano	IT Engineer based in Tokyo Japan, My special interests are technical and product space in supply chain/healthcare industries. More specifically, traceability. transparency, counterfeit prevention for generic drugs with superb technology. ^^) @tomomi.yamano
Jim Mason	Blockchain Solutions Architect - Blockchain Practice Leader, Paramount Software Solutions Sky Web Team focus on Enterprise blockchain solutions and projects using Fabric and other Hyperledger solutions
Rajesh Krishnan	Senior Technical Architect, Dell Technologies. Working on Enterprise blockchain solutions and projects using Fabric . Interested in Supply chain, Logistics, and transportation. Member of Hyperledger India Group .
Alicia Noel	Consulting with organizations around the world that are developing agriculture and food-related platforms which use blockchain, with a focus on supply chain traceability. Also curating a research collection on Blockchain Uses for Social and Economic Equity in Agriculture and Food Production for Swiss academic journal Frontiers in Blockchain.
Clive Boulton	Strong interests in multi-party security for supply chain and sustainability. Member of the Hyperleger Architecture Working Group. Past Chair of the Hyperledger Requirements WG.

Akshaya Ravi	Vice President of KrypC - a domain-agnostic, low-code, lifecycle management solution for any Hyperledger based blockchain program. It addresses all aspects of the lifecycle – Build, Deploy, Manage and Scale.
Brian Aoaeh	Cofounder & General Partner at REFASHIOND Ventures an early stage venture fund investing in supply chain technology and innovation. Cofounder of The New York Supply Chain Meetup & The Worldwide Supply Chain Federation. Adjunct professor of Supply Chain & Operations Management in the Department of Technology Management & Innovation at the Tandon School of Engineering at NYU. Contributor at FreightWaves.
Chris Smith	Houston based VP of Sales for KrypC - a full service blockchain provider. Looking to network with HLF members and to be a resource for any enterprises in need of blockchain expertise, services or software. Interested in blockchain projects around traceability, sustainability and warranty validation.
Erik Valiquette	<p>Erik is the co-founder and president of the Canadian Blockchain Supply Chain Association. Through their core services of Advocacy, Collaboration and Education, they bring together like-minded professionals who want to explore Blockchain in their supply chain. The member-driven association's goal is to accelerate the adoption of Distributed Ledger Technology through dialog, to help shape policy with governmental agencies for improved services, and to help the community's voice to be heard.</p> <p>With a 30 year career in logistics, he's passionate about bridging the gap between technology and business needs and is a firm believer that Blockchain has the potential to bring global supply chain management to the next level by reducing waste. Erik is based in Montreal, Canada.</p>
Yari Borbon-Galvez	Senior Research Fellow at LIUC Università Carlo Cattaneo. Interested in Supply chain, Logistics, and transportation. Researching on digitalization, blockchain, security, sustainability and optimization.
Neha Mutke	Tech Lead, Snapper Future Tech. Working on supplychain product for food traceability.
Sristhi Assudani	Director, SettleMint, India. Interested in Supply chain, Logistics and Transportation.member of Hyperledger India Chapter. Member of GBA.
