Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

All are Welcome in the Hyperledger Community

Goals-Agenda

- Antitrust Policy and introductions - VB
- Identity WG Implementer call - report - Daniel Bluhm
  - Meeting Notes (recording at the bottom): 2019-08-15 Identity WG Implementers Call

- SISIG (Social Impact SIG) and the Identity WG Andres "Dre" Bonifacio
  1. 8-6-2019 SISIG Mtg Highlight(s) - Matthew Davie, Digital Strategy Officer of Kiva discussed the use of Kiva Protocol ("Trusted Identity" and Credit History) for Financial Inclusion. Attached are meeting notes for your review. 2019-08-06 Meeting notes
  2. 8-20-2019 SISIG Mtg Highlight(s) - Cornelius Saunders, Program Manager at ID2020, is presenting on their "Digital Identity" activities. Attached is the agenda for the next meeting. 2019-08-20 Meeting notes Please join the Social Impact SIG and the bi-weekly calls if interested.
- Implementing metrics from Chaoss... DCIWG
- Progress of Identity Working Group paper. sticking points
  - Aadhaar section-look at reworked areas
  - Paper collaboration during RWOT- Marta Piekarska
- Report from Tokyo member's summit- Nathan George
- Libra and its Identity system - VB presentation and discussion

Attendees

Name	Organization	Email
Vipin Bharathan	dlt.nyc	vip@dlt.nyc
Cam Parra	Kiva	camilop@kiva.org
Daniel Bluhm	Sovrin Foundation	daniel.bluhm@sovrin.or
Kelly Cooper		kellycooper.2ds@gmail.com
Matt Raffel	Kiva	mattr@kiva.org
Richard Esplin	evernym	
Samuel Smith	ProSapien various	sam@samuelsmith.org
Cam Parra		
Sidharth Mishra		
Steve Magennis		
Adam Stallard		
Andres "Dre" Bonifacio	SymPact / Bonifacio & Co.	info@sympact.io
Kariyappa Singadi		
Santanu Mukherjee	Mindtree Ltd.	santanu.mukherjee@mindtree.com

Discussion:

Kiva demo in Sierra Leone - https://www.kiva.org/blog/kivas-next-frontier-kiva-protocol

Increasing group activity and progress: Work between bi-monthly meetings. Also started a collaboration with Identity Implementers, with the implementers call which goes into technical depth and detail.

Daniel Bluhm - Sovrin. Hyperledger Indy Performance testing. GitLab CICD migration for the H Indy project. Meeting link is on the agenda for this meeting.

Vipin Bharathan - Interested in chaos testing. Indy scripts. Includes W3.org verifiable credentials. More information about this is on the Indy Implementers call and wiki.

Social Impact SIG - Primarily focus - serving as a platform for exchange ideas and ways to use DLT in the context of social good. The group is working on different ways to make more productive for all and cross collaborate with WGs and SIGs. A recent survey on group direction. Group has brought in speakers with social impact causes. Lately, the main portion of all conversations is Identity. SIG decided on liaison to Identity to not duplicate effort. The meeting includes presentation notes on what Kiva is working on with ID.

ID2020- meeting next week in NYC. Open for attendance. Governments and other agencies as well as concrete projects they are sponsoring for financial inclusion in various parts of the world.

CHAOSS - https://chaoss.community/ Addresses gender, diversity, geolocation in industry. Working on diversity metrics. DCI Working group in Hyperledger has taken on this task. Need concrete steps to increase.

Identity Paper - Move from Google Docs to Confluence? What is the best way to maximize document contributions and quality? Live paper to incorporate updates but not a forever-draft. Identify sections that are 'complete' 'need work' 'need updates'. This paper strives to aggregate the collective wisdom around Identity and Blockchains, with a focus on the DLTs hosted by Hyperledger.

> Aadhaar - controversial. The section needs additional attention. What are the advantages of a system like Aadhaar in a country like India, leapfrogging other systems. The paper does not support or refute, will inform on both perspectives. Consent layer - important to incorporate, which tries to moderate excesses of government overreach. Most extensive identity system in the world.

Nathan George report from Tokyo - move to next agenda.

Vipin report on Libra and its Identity system - Questions relate to scale? How will the governance model work? - move to next agenda.
