

# 2019-08-20 Meeting notes

## Date

20 Aug 2019

## Attendees

- [Karen Ottoni](#)
- [Alfonso Govea](#)
- [Andres "Dre" Bonifacio](#) "Dre"
- Jim Cupples
- Adam Lambert
- Cornelius Saunders
- [Bobbi Muscara](#)

## Agenda & Meeting Notes

	Item	Who	Notes
1	Intro	New participants	Introductions: Who's new to the group or call? Let's get to know each other and what we're working on in the 'blockchain for impact' world

2	Survey Results & NEXT STEPS	Karen	<p><b>You are here because...</b>you want to learn &amp; explore, build a perspective blockchain in social impact and meet others in the process</p> <p><b>You want to contribute by:</b></p> <table><tr><th>Activity</th><th>Interested parties</th><th>Action Item/Next Step</th></tr><tr><td>Drafting a whitepaper</td><td>Adam Lambert</td><td>1. Communicate separately to decide on a topic, potentially from preferred topics listed below 2. Start an outline</td></tr><tr><td>Doing research on this space including mapping use cases and best practices</td><td><a href="#">Alfonso Govela</a> Jim Cupples Adam Lambert</td><td>1. Identify, cull, highlight resources on use cases and best practices 2. Determine what is out there and what is missing from these resources, could be overall or in a specific topic area (see preferred topics below) 3. Potentially add to existing resources or create our own resource 4. Share what we have learned or drawn up through a blog, solution brief, white paper, database, etc. that includes our own POV on this technology in this space</td></tr><tr><td>Connecting and liaising with others in the Hyperledger community</td><td><a href="#">Andres "Dre" Bonifacio Bobbi Muscara</a></td><td>1. Based on above activities and interests coming from this group, identify 1-2 groups that may help inform, knowledge-share, or have lessons learned to share on what we're doing     a. <a href="#">2019-08-21</a> ID WG (sample agenda)</td></tr></table> <p><b>It is important to you that we...</b>be a thought leader to shape the technology, shape standards, consider environmental impacts, and understand what is being done already</p> <p><b>You want to do the above in...</b>digital currencies, aid/philanthropy, supply chain, and best practices in implementation</p> <p><b>And so first we will...</b>define use cases, best practices, identify project proposals in proposed areas, and start a white paper on the above</p> <p><b>Please review the results here:</b></p> <div></div> <p><b>Notes:</b></p> <ul style="list-style-type: none"><li>• EdX developing a course and needs examples—may be an output of our research group <a href="#">Bobbi Muscara</a></li><li>• WorldVision: mexico and timor leste use case <a href="#">Alfonso Govela</a></li></ul>	Activity	Interested parties	Action Item/Next Step	Drafting a whitepaper	Adam Lambert	1. Communicate separately to decide on a topic, potentially from preferred topics listed below 2. Start an outline	Doing research on this space including mapping use cases and best practices	<a href="#">Alfonso Govela</a> Jim Cupples Adam Lambert	1. Identify, cull, highlight resources on use cases and best practices 2. Determine what is out there and what is missing from these resources, could be overall or in a specific topic area (see preferred topics below) 3. Potentially add to existing resources or create our own resource 4. Share what we have learned or drawn up through a blog, solution brief, white paper, database, etc. that includes our own POV on this technology in this space	Connecting and liaising with others in the Hyperledger community	<a href="#">Andres "Dre" Bonifacio Bobbi Muscara</a>	1. Based on above activities and interests coming from this group, identify 1-2 groups that may help inform, knowledge-share, or have lessons learned to share on what we're doing a. <a href="#">2019-08-21</a> ID WG (sample agenda)
Activity	Interested parties	Action Item/Next Step													
Drafting a whitepaper	Adam Lambert	1. Communicate separately to decide on a topic, potentially from preferred topics listed below 2. Start an outline													
Doing research on this space including mapping use cases and best practices	<a href="#">Alfonso Govela</a> Jim Cupples Adam Lambert	1. Identify, cull, highlight resources on use cases and best practices 2. Determine what is out there and what is missing from these resources, could be overall or in a specific topic area (see preferred topics below) 3. Potentially add to existing resources or create our own resource 4. Share what we have learned or drawn up through a blog, solution brief, white paper, database, etc. that includes our own POV on this technology in this space													
Connecting and liaising with others in the Hyperledger community	<a href="#">Andres "Dre" Bonifacio Bobbi Muscara</a>	1. Based on above activities and interests coming from this group, identify 1-2 groups that may help inform, knowledge-share, or have lessons learned to share on what we're doing a. <a href="#">2019-08-21</a> ID WG (sample agenda)													
3	SIG Chair Election Process	Karen	Will share an update on the next meeting												

4	Presentation	Cornelius Saunders, ID2020	<ul style="list-style-type: none"> <li>• Not exclusively focused on blockchain technologies, "coalition of the willing"</li> <li>• Focus: funding and implementing high impact projects, will be involved in Kiva protocol in future, advocate for ethical practices in digital identity</li> <li>• Have annual events, summits and retreats</li> <li>• Indonesia Project <ul style="list-style-type: none"> <li>◦ uneven subsidy for fuel program, wealthiest quarter capturing 33% of benefits</li> <li>◦ 5000 established digital identity, helped with more fair access</li> <li>◦ biometric, facial and fingerprint non-touch, mobile app—there was an issue with headscarves blocking facial recognition, also issue with fingerprints that were illegible</li> <li>◦ Used EverID platform</li> </ul> </li> <li>• Mae La Camp in Thailand <ul style="list-style-type: none"> <li>◦ uses Hyperledger Indy</li> <li>◦ 35000 identities in refugee camp</li> <li>◦ iRespond and Evernym implemented</li> <li>◦ improves access to services in the camp, improves continuity of care</li> <li>◦ Use apps that allow them to keep records and use it outside of the camp</li> <li>◦ Sensitivities with population because they are not completely welcome in Thailand and have fled from Myanmar, need to ensure ethics around informed consent and ensuring that the identities can't be used against the population</li> <li>◦ Information unraveling—negative party can't access sensitive information, for example, if just vulnerable population has a smart card, then just owning one can be a risk</li> </ul> </li> </ul>
