HYPERLEDGER
Education Architecture
SPECIAL INTEREST GROUP

Introduction and Scope

The Education Architecture Special Interest Group (EASIG) will explore and advise on issues related to integration with legacy application infrastructure of learning management systems (LMS), Student Information Systems (SIS), Enterprise Resource Planning (ERP), Integrated Library Systems (ILS), Instructional Apps, Customer Relationship Management Systems (CRM), Human Capital Management (HCM), Cloud Computing models (SaaS, PaaS, IaaS, Hybrid), and self-sovereign digital identity. In addition, this group will investigate the integration of data across the multiple institutional, informal, and workplace learning experiences in the student's lifetime of learning, and whether these can be integrated into a comprehensive record of an individual's knowledge, skills, and ability.

How to Get Involved

- Join the mailing list and chat channel, introduce yourself and explain why you're interested in the group.
- Start editing the wiki (if you need an account, you can get one for free by [signing up for a Linux Foundation ID](#)).
- Attend an upcoming call /webinar to express interest and introduce yourself to the group.
- Look through discussions on the list archives and read through meeting notes and see which activities are happening that you're interested in and post to the list about wanting to take part. Someone from that effort will connect with you to talk about next steps.
