HC-SIG General Meetings

HYPERLEDGER
Healthcare
SPECIAL INTEREST GROUP

HC-SIG General Meetings serve as an entrée for prospective members in the global healthcare community interested in understanding how best to educate themselves and participate in the implementation of blockchain technologies–ostensibly using the Hyperledger Project umbrella of frameworks, tools, and extensive community–in order to create secure and healthcare-compliant enterprise solutions. For more established members, these meetings serve as a resource for the notification and publication of relevant community healthcare activities (e.g., healthcare conferences and related events), as well as a means for promoting and encouraging the project engagement and accomplishments of each of its HC-SIG subgroups and *ad hoc* teams.

As a regular agenda item, HC-SIG Subgroup leads and Ad Hoc Team leads (or their proxies) “roll up” their team activities so as to educate prospective new members on active project opportunities.

Periodically, **HC-SIG General Meetings** are host to guest speakers from around the healthcare industry. These event agendas are focused around our guest presentation, and limit the regular roll up of HC-SIG team activities.

Meetings are **held on a bi-weekly basis on Wednesday mornings at 1000 (Eastern Time).**

Hyperledger, as part of the Linux Foundation, is an open source/open community professional organization. Your active participation is encouraged and always welcome, and attendance is free to all.

Resources

New to Hyperledger? You'll need a Linux Foundation ID (LFID) to edit our wiki pages and chat on Hyperledger channels. Here's how to get your LFID

Stay Informed. Get on our email list, and receive regular updates to HC-SIG meetings and events
