I. Welcome

    Join Group https://lists.hyperledger.org/g/learning-materials-development-wg

    Introduction to Learning Materials Working Group

> The Learning Materials Development working group reports to the Hyperledger Technical Steering Committee. It is focused on developing open source training material (licensed as specified by the Hyperledger Charter) to educate people interested in expanding their knowledge of Hyperledger and its projects. The working group will consult with other Hyperledger working groups, Hyperledger team members, and the project maintainers to identify training needs and develop strategies, as well as, material to address those needs. The output of this working group will be targeted towards both technical and non-technical audiences

.   *Antitrust Policy Antitrust Policy Notice*

> *Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws. Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.*

    Code of Conduct

    Introductions from people on the call:

II. Structure of the Working Groups:

    Setting up a Task Force WGTF_Proposal 5

    Proposal 5: A task-force will be required to create a "proposal" and the TSC must approve the proposal.

    The proposal should, at a minimum, include the following information:

        Introduction/background material

        Task to be completed

        List of deliverable or work products

        Time to complete (no more than 6 months)

        Leader

        Initial participant list

III. EdX Update / Discussion

- EdX Updates:
  - Opportunity to review Hyperledger Fabric Developer Exam

    Admin3:17 PM
    Last chance! The Linux Foundation worked with Hyperledger Fabric Developer subject matter expert volunteers to identify the core domains and competencies for the Certified Hyperledger Fabric Developer (CHFD) exam, scheduled to launch in March 2020. Are you interested in participating in the Beta and receiving an early peek? The CHFD Beta is FREE for the first 100 who take the exam. Complete the CHFD Beta Sign-up Form by January 15, 2020 for your chance. If you pass you will be CHFD Certified!
  - Edx folks are storing Hyperledger course ware in different repo (BTA) that LMDWG does not have access
  - **Blockchain for Business : On-line, very popular course.**
  - **No updates on Technical course.** Technical course is being edited by BLOCKCHAIN TRAINING ALLIANCE so no need for us to evaluate. Still waiting for 2.0 to develop a Fabric Tech guide. Steve remarked more courses will be rolled out Q1 2020
- **GitHub** Repository -
  - Nathalie's Report. https://github.com/hyperledger/education
  - Ravi's Contribution Basic Fabric Functions https://github.com/ravinayag/fabric-samples-explained/blob/master/README.md
  - **We have a repository that we can build out using existing materials from projects.**
  - **SUGGESTIONS:**
    - **Archive old LMD Repository to automatically close out outstanding issue (years old)**
    - **Set up new repo. for LMD with clear Rules and governance established prior to members supplying work. Define Governance, submission guidelines, Ownership, Maintainer, Project leads (to encourage people to stay with projects.) Ravi has started a repo for the LMD working group dealing with organizing information for Scripts. To use to repo to examine what the scripts you need to run are for, how they work and why. We will discuss next time how his work will fit into new Repository, Nathalie will email Traci to get the ball rolling.**

IV. Wiki / Pages (Updates and Additions)

- Home Page **: Membership Information / Up to date Info**
- **Task Member Sign-Up: Discussion of Open Projects add project**
    - Best Practices Page**: Updated pages**
      Requirements for CII (Core Infrastructure Initiative) **in out line form, ready to be update to reflect current project issues and needs. Develop a standard for projects to follow for their life cycles.**
    - Resources Page**: Updated to reflect project documentation**
    - **USE Case**
    - **Key Terms**
    - **New Member Sign -up**
    - **Meet-up Project**

V Old Business

- **Setting up a Task force to work on Best Practice Badge requirements, based on current CII**
- Organize the TSC documentation Librar**y: record decisions by week that are made during TSC calls. Maintain a Documentation Library for TSC governing documentation APPROVED VERSIONS ONLY.**
- **Archive old and Create new LMD GIthub Repo and establish governance model**

VI. New Business

Inclusive Speaker Orientation (LFC101)

Created in collaboration with the National Center for Women & Information Technology (NCWIT), this orientation course is designed to provide you with essential background knowledge and practical skills to promote inclusivity in presentations, messaging and other communications.
