

2020 Q1 Hyperledger Burrow

Project

<https://github.com/hyperledger/burrow/>

Project Health

Stable, minimal feature work since last report. Outreach on Rocket.Chat and GitHub reasonably active, however no new code contributors.

Questions/Issues for the TSC

Promotion of Burrow in previous quarter has not improved contribution diversity, further suggestions are welcome.

Releases

- [v0.29.8](#) - Bug fixes
- [v0.29.5](#) - Tendermint upgrade, vent improvements, rpc error codes
- [v0.29.4](#) - Solidity 0.5.12
- [v0.29.3](#) - Bug fixes

Overall Activity in the Past Quarter

- Bug fixes in response to user issues and various library upgrades.
- Re-write of client JS lib in TypeScript. [[#1318](#)]

Current Plans

See: <https://github.com/hyperledger/burrow/issues/1331>

- Introduce new 'proxy' tooling to improve security - i.e. no more 'mempool signing'.
- Implement and test eWASM support.
- Work on cross-calls between EVM, eWASM and Natives.
- Experimental Cosmos IBC support.

Maintainer Diversity

No new maintainers. However, one recent departure from Monax has retained maintainer status. Therefore we have 3 internal and 3 external maintainers.

Contributor Diversity

No new contributors.
