Meeting Overview

EDI and Blockchain. Blockchain and EDI. EDI is ubiquitous in Supply Chains. Blockchain is already making inroads in Supply Chain. Early blockchain hype said blockchain would replace EDI, but is that really the case? Join two industry leaders, Arun Samuga, CTO at Elemica, and Mike McKeough, VP at Highview to learn more about the relationship of EDI and blockchain and the possibilities to leverage the combination.

Topics

- Brief overview of EDI and Blockchain
- Blockchain and EDI use case
