## Announcements

### Code & Projects

Hyperledger Besu

- Besu v. 20.10.0 [is now available](#). Improvements include:
  - Flexible Privacy Group Performance tests
  - Mainnet Support Work, including preparing for the Berlin Network Upgrade and EIP-1559 support

Hyperledger Ursa

- Ursa Go Wrapper v0.2.0 [is now available](#).
  - This project is very new but progressing steadily.
  - Goal is to bring full Ursa support to software projects written in Golang.

### Noteworthy Issues / Pull Requests

Hyperledger Fabric

- [Add RSA support back](#)

Hyperledger Aries RFCs

- [RFC 0453 - Support credential gallery images](#)
- [Proposed concept RFC: Privacy-Preserving Proof of Uniqueness](#)

Hyperledger Grid

- [Update schema list output](#)
- [Update location list output](#)
- [Update product list output](#)

Hyperledger Labs: Fabric Private Chaincode

- [Create Enclave Flow](#)

### Articles, Training & Tutorials

- [Hyperledger Besu is now using CalVer instead of SemVer, Announcing 20.10.0](#)
- Please Comment: [Hyperledger 2020 Mentorship Project Presentation: Universal Cryptographic Signing for Git](#)

### Events

- [Hyperledger India Chapter](#) is proud to present "Blockchain Techfest 2020" where you hear directly from the developers building Hyperledger technologies. The event is in association with the [#HyperledgerAfricaChapter](#) and the meetup groups across Asia Pacific and Europe. Register Now: <https://lnkd.in/gGA3aA2>
