MH : VC file format discussion on CCG: <https://lists.w3.org/Archives/Public/public-credentials/2021Feb/0022.html>

MH : My overarching Trusted Digital Web project: Video (3 videos): <https://www.youtube.com/playlist?list=PLU-rWqHm5p45dzXF2LJZjuNVJrOUR6DaD>

Whitepaper: <https://hyperonomy.com/2021/02/03/trusted-digital-assistant-conceptual-architecture/>

MH : What I'm building looks kind of looks like this: <https://hyperonomy.com/2021/02/03/trusted-digital-assistant-conceptual-architecture/>

MH : For adoption models, checkout <https://hyperonomy.com/2019/10/16/technology-adoption-models/> Model 2b is the one I believe is most relevant to the SSI model. Model 2a is represents realistically where we are today.

Jim St. Clair : There's a relationship between Solid and Semantic Containers (SemCons)
