Discussion items

- (1) Proposal: Bi-weekly meeting schedule
- (2) HGF Registration Now Open
 - Presentation Language: English first, but other local languages should be supported
 - Proposal should be shared between Cactus maintainers.
- (3) Takuma: PR about the example (electricity-trade)
 - Rafael: How it works?
 - Shingo: Sawtooth tx triggered the cactus event, and Ethereum transaction will be triggered by Cactus.
 - Takuma: Documentation will be added on later pull-requests. Stay tuned!
- (4) Rafael: Enterprise usecase
 - Rafael: Collaborating on IETF
- (5) The errors of CI checking tools
 - Almost are resolved over time (so there is no problem?)
 - Shingo: Could you consider to improve the problems when outside developer comes. We should minimize the dependency of the local env.
