

2021.02.17 General Meeting Agenda

Attendees

Mike McCoy
Erika Beerbower
Daniela Barbosa
Jim St. Clair
John Walker
Rhonda Okamoto
Debbie Bucci
Doug Bulleit
Evangelous Markopoulos
John Hatchell
Kamlesh Nagaware
Mahesh Balan
Ben Taylor
George Hervey
Bear Simerson
Guillermo Diaz

Meeting Recording

HYPERLEDGER
Healthcare
SPECIAL INTEREST GROUP

Hyperledger is a non-profit consortium of the Linux Foundation, advancing enterprise-grade business blockchain technologies through open source, open community collaboration

HC-SIG General Meeting Guest Presentation

John Walker, Community Architect at CCI & LFPH

February 17th, 2021
1000 - 1100 Eastern

John from the COVID-19 Credentials Initiative and Linux Foundation Public Health team is an experienced solutions architect with a background in large scale product and customer enterprise data initiatives in the tech, bio-tech, retail and publishing domains. Our guest will demonstrate and review architecture proposed for digital health pass solutions using JSON LD BBS+ signatures with ZKPs to link credentials to a link secret and why this is a preferred method for identity interoperability. We look forward to this technical conversation to explore digital health pass technology and to strive for greater medical record portability.
