2021 Q1 Hyperledger Explorer

Hyperledger Explorer

Project Health

Project health is green. We use all of the following to help keep project health green. Questions asked via rocket chat are being answered in a timely manner. For greater efficiency in this regard, the FAQ page is updated with every release.

Required Information

1. Have you switched from master to main in all your repos? yes
2. Have you implemented repolinter.json in all your repos? yes

Questions/Issues for the TSC

None

Releases

Releases this quarter:

- v1.1.4 - January 29, 2021

v1.1.4 added features:

- Upgrade fabric version supported by Explorer
- Admin User Panel lists all users, allows admin to delete users

Overall Activity in the Past Quarter

The project has released features of the Admin user panel.

Started discussion with new contributors to add new features to Explorer

Current Plans

- Add UI link to the transaction page
- Upgrade base image of Explorer container image
- Add the steps to configure a subdomain
- Upgrade fabric version supported by Explorer
- Add new peer metrics view based on the information collected via Prometheus
- Continue on bug fixes, help community in configuring HLExplorer and troubleshooting
- Integrate the additional features mentioned in the "Contributor Diversity" section into Explorer

Maintainer Diversity

We've had a few spot contributors added. No new maintainers were added. We really need the community to come forward and contribute.

Please find here the maintainers list. https://github.com/hyperledger/blockchain-explorer/blob/master/MAINTAINERS.md

Contributor Diversity

The current main contributors are from DTCC and Fujitsu. We have 8 unique contributors on Github and 9 unique reporters on JIRA in this quarter.

Additional Information

The insight chart can be found at Explorer stats for the last quarter.
