Project Page - Global Scouting for DLT / Blockchain Educational Opportunities
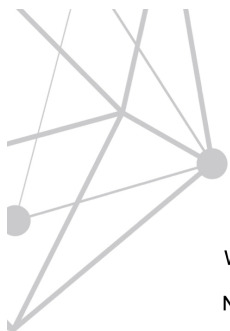

Welcome to our Project Page!

Our goal is to initiate a **Decentralised Global Directory of DLT / Blockchain Educational Opportunities**, that engages a **Community** to build and maintain it, and to develop a **Tool Kit** that supports this collaboration.

We want to identify and contact potential allies to link our inner Hyperledger Universe with the rest of the world. We need scouts to explore, register and map the outer territories beyond our community.

Please help us by answering the survey. We expect your opinion on DLT / Blockchain Educational Opportunities!

Link to the the survey: https://forms.gle/FRo9t1jRNKWYRSw87

Global Scouting of DLT / Blockchain Educational Opportunities

Mentorship Project of Linux Foundation at
Learning Materials and Development Working Group

June 2021

HYPERLEDGER
BLOCKCHAIN TECHNOLOGIES FOR BUSINESS

Why do this Project?

Learning about DLT and Blockchain is difficult.

There are overwhelming amounts of unorganized information scattered across the web.

We will be growing a unique community of learners.

Newcomers to DLT and Blockchain will have a great tool to learn quickly.
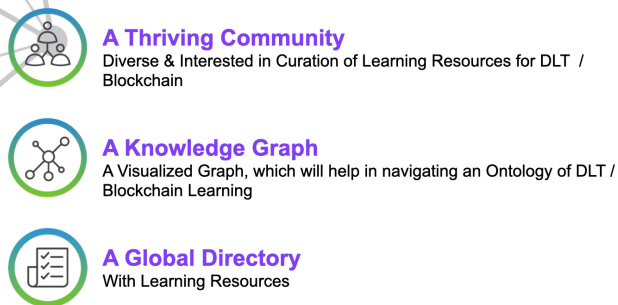

Barriers to entry for DLT will be lower.

We will create an effervescent Learning Initiative.

Our Plan

Survey
Will help gather human feedback

Automation
Will help enumerate digital resources

Community
Will review and give continuous eedback

Knowledge Graph
Will represent our Learning Ecosystem in a Graph Database

Community
Will validate and filter a Ontology of DLT/ Blockchain Learning

What we will Achieve

A Thriving Community
Diverse & Interested in Curation of Learning Resources for DLT / Blockchain

A Knowledge Graph
A Visualized Graph, which will help in navigating an Ontology of DLT / Blockchain Learning

A Global Directory
With Learning Resources

CALL TO ACTION

Answer the Survey.

Contribute to Ontology and Taxonomy.

Contribute to the continuous development of Knowledge Graph

Help us curate the results.
