Hyperledger is committed to creating a safe and welcoming community for all. For more information please visit the [Hyperledger Code of Conduct](#).

Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

Main Event

A talk by Graeme Moore:

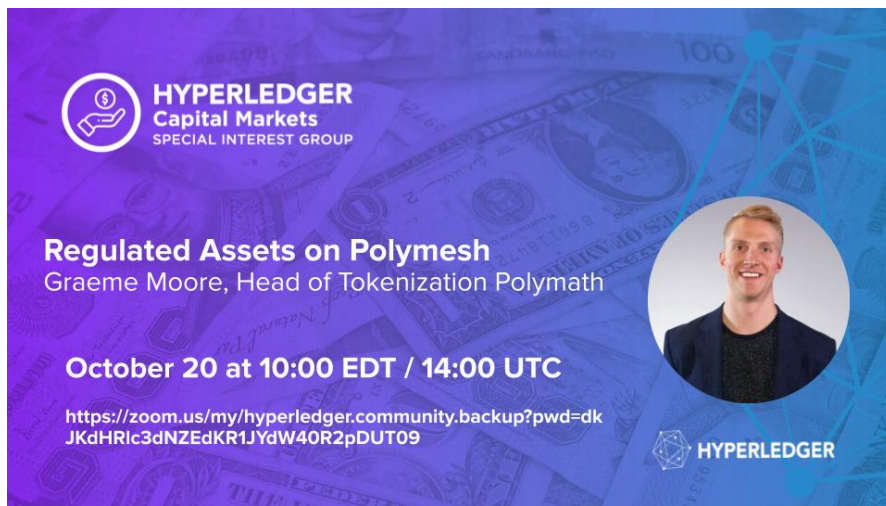

Polymesh A purpose built blockchain for Capital Markets

Graeme Moore is the Head of Tokenization at Polymath, which makes it easy to create and manage security tokens through tools on Ethereum and a soon-to-be-released, purpose-built blockchain named Polymesh.

He is also an advisory board member of RedSwan, a marketplace for tokenized commercial real estate; and the author of B is for Bitcoin, the first ever ABC book about Bitcoin.

Talk:

Polymath spearheaded ERC-1400 to enable securities on Ethereum, but after encountering key issues with public blockchains for regulated assets, embarked on building Polymesh - a blockchain purpose-built for capital markets. Polymesh is built with five key pillars in mind: governance, identity, confidentiality, compliance, and settlement.
