01/13

HYPERLEDGER FOUNDATION

/dev/weekly

Announcements

Interested in how blockchain can be used in the telecom industry? Check out a new research report about Self-Assessing Service Level Agreements (SLAs) with Hyperledger Fabric that was created by Hyperledger's Telecom Special Interest Group. The authors of the paper will be presenting about this topic at a call on Thursday, February 9 at 9 AM Pacific and all are welcome to join for that discussion.

Code & Projects

Hyperledger Fabric

There are several virtual meetups coming up that will give you an opportunity to learn more about using Fabric.

- Thursday, January 19 at 16:00 UTC / 8:00 PST: Hyperledger Madrid hosts "Setting Up A Hyperledger Fabric Network From Scratch"
- Thursday, January 26 at 16:00 UTC / 8:00 PST: Hyperledger Denver hosts "Accelerate the Path to Production with Fabric Topologies"
- Thursday, February 23 at 17:00 UTC / 18:00 CET: Hyperledger Budapest hosts "IT Service Management (ITSM) for Hyperledger Fabric"
- Monday, February 27 at 16:00 UTC / 11:00 EST: Hyperledger Boston hosts "How to Build Web-Based Distributed Applications (DApps) on Hyperledger Fabric"

Noteworthy Pull Requests

Hyperledger Aries

- Fix multi tenant/mediation in demo

Hyperledger Besu

- Introduce engine get payload body

Hyperledger Labs

- Orion Server: Get TX API

Articles, Training & Tutorials

If you're wanting to learn more about blockchain and distributed ledger technology this year, check out the free online training courses that have been created by the Linux Foundation to help you get up to speed with Hyperledger projects.

Events

- If you're interested in helping set the technical direction of the Hyperledger community, you are welcome to join the weekly Technical Oversight Committee calls that happen each Thursday at 10 AM Eastern. And check out this recent blog post about the Technical Oversight Committee to learn more about what they do and who was elected to serve on the group.

You can find more Hyperledger calls and other events listed on the community calendar.

This newsletter is sent out to hundreds of Hyperledger developers. It is a collaborative effort. If you have a project release, pull request, community event, and/or relevant article you would like highlighted next week, please leave a comment for consideration.
