Discussion Topics

- Open Wallet Foundation Component Presentation
 - Feb 20, noon US/Mountain
 - 60 min meeting, likely 45 for our presentation.
 - Scope will be Hyperledger Aries
 - We can present whatever we want.
 - Any UX has been mostly declared out of scope - just interested in 'wallet components'
 - I was not going to offer any of these things as direct code contributions (which has been common during other presentations)
 - I wanted to present to raise awareness
 - Proposal:
 - Introduce the Hyperledger Aries projects, with goals and history
 - Aries Askar / shared components
 - Aries Cloudagent Python
 - AFJ
 - Mention as underlying foundation for Aries Bifold
 - Ideally, we have a rep of each project share their project for a few minutes
 - This shows them the size and activity of the community
 - Open Issue: What is the future relationship of Aries and the Open Wallet Foundation?
 - **Deck is in progress**
- LegacyPeer DID Method
 - <https://github.com/hyperledger/aries-rfcs/pull/768>

 - Phase 3 - Support for Old may be removed. - Sept?
