

# Documentation Index

## Official Resources

- Indy is a project hosted by [Hyperledger](#). There are a lot of good resources on the [Indy Project Page](#).
- Indy consists of multiple code repositories hosted at [Hyperledger's GitHub](#). Each repository has:
  - A README.md with important information for getting started.
  - A docs folder, which is published to [Indy.ReadTheDocs.io](#) as the official documentation.
  - A design folder, which contains additional architecture information.
- Project specific standards are proposed as [Hyperledger Indy Project Enhancements \(HYPEs\)](#).
- You should also read [How to Contribute](#)

## Community Resources

These are unofficial resources provided by members of the Indy community. They are not maintained along with the code base, but can be very helpful.

- [Hyperledger Blockchain Course](#): Discover the power of business blockchains and distributed ledger technologies with an overview of Hyperledger and introductions to its key frameworks.
- [SSI Meetup](#): An online meetup which publishes regular webinars teaching concepts about self-sovereign identity.
- [Infominer's Resources on Decentralized Identity](#): A comprehensive list of resources to learn about SSI
- [Indy Architecture Reference Model](#) and [the ARM Explorer](#): A guide to all the components in the Indy ecosystem.
- [Getting Started Guide for Enterprise Architects and Developers](#): A detailed getting started tutorial tailored for enterprise architects.

## Sovrin Resources

The Sovrin Network is the largest public deployment of Indy. Their documentation is helpful in understanding the system.

- [Sovrin Improvement Proposals \(SIPs\)](#): Standards specific to the Sovrin project.
- [Sovrin Glossary](#): A glossary of the various terms used by Sovrin and Indy.
- [Sovrin Protocol](#): The Sovrin network's protocol for decentralized identity built on Indy.
- [Sovrin Library](#): A library of whitepapers and documents related to Sovrin.

## Archive

Older resources that still have some value.

- [Use Cases for SSI](#)
- [A presentation on agent to agent communication](#)
- [Drummond Reed's webinar on digital identity models and SSI](#)
- [Indy Documentation Index from old wiki](#)
- [Guide to Contributing to the Docs from the old wiki](#)
